WTFA Generated	Generated variable AGE = ALL and PINJ3M = 1 / All injury and/or poisoning episodes Injury and/or poisoning episodes for persons who had at least one injury or poisoning during the past 3 months
145-150	Weight - Final Annual

Sources: None

Recodes: None

Keywords: final weight; annual; person weight

Notes: This weight should be used for most analyses at the person level when using a full year of data. All injury/poisoning questions have a recall period of 3 months. Annual estimates should be calculated as follows: variable * 4 * WTFA = annual estimate of a variable.
