APPENDIX IV. QUESTIONNAIRE—CONDITION APPROACH

The items show the exact content and wording of the basic questionnaire used in the nationwide household survey of the U.S. National Health Survey. The actual questionnaire is designed for a household as a unit and includes additional spaces for reporting more than one person, condition, accident, or hospitalization. Such spaces are omitted in this illustration.

NOTICE - All information which would permit identification of the individual will be held in strict confidence, will be used only by persons engaged in the purposes of the survey, and will not be disclosed or released to others for any purposes.
