**Question ID:** NAF.010\_00.000    **Instrument Variable Name:** SUN1HR    **QuestionnaireFileName:** Sample Adult**QuestionText:** ? [F1]

Now, we are going to ask you about your skin's reaction to the sun. After several months of not being in the sun very much, if you went out in the sun for an hour without sunscreen, a hat, or protective clothing, which one of these best describes what would happen to your skin? (\*Read choices 1-5 only)

\*Read if necessary: Even if you did not go out in the sun, what would happen if you did? Use the most recent experience. If none, then think about the past.

\*By "sunburn" we mean even a small part of your skin turns red or hurts for 12 hours or more.

- 01 Get a severe sunburn with blisters
- 02 Have a moderate sunburn with peeling
- 03 Burn mildly with some or no darkening/tanning
- 04 Turn darker without sunburn
- 05 Nothing would happen to my skin
- 06 Do not go out in the sun
- 07 Other
- 97 Refused
- 99 Don't know

**UniverseText:** Sample adults 18+**SkipInstructions:** <1-7,R,D> [goto SUNTAN]

**QuestionText:**    Colonoscopy (colon-OS-copy) and Sigmoidoscopy (sigmoid-OS-copy) are exams in which a doctor inserts a tube into the rectum to look for polyps or cancer. For a colonoscopy, the doctor checks the entire colon, and you are given medication through a needle in your arm to make you sleepy, and told to have someone drive you home. For a Sigmoidoscopy, the doctor checks only part of the colon and you are fully awake.

Have you EVER HAD a colonoscopy?

\*Read if necessary:

A polyp is a small growth that develops on the inside of the colon or rectum.

Before these tests, you are asked to take a medication that causes diarrhea.

- 1      Yes
- 2      No
- 7      Refused
- 9      Don't know

**QuestionText:** CT colonography, sometimes called virtual colonoscopy, is a new type of test that looks for cancer in the colon. Unlike regular colonoscopies, you do not need medication to make you sleepy during the test. In this new test, your colon is filled with air and you are moved through a donut-shaped X-ray machine as you lie on your back and then your stomach.

Before today, HAD YOU EVER HEARD of CT colonography or virtual colonoscopy?

\*Read if necessary:

This is not the same as a colonoscopy or a Sigmoidoscopy.

Unlike CT tests for other purposes, you DO take laxatives to clean out your colon for this test.
